Plumbing program 2024

Water pump pliers

The BRINKO pipe wrench „BRlpowerXL“ with slip joint for larger pipe diameters and large-edged screw connections fits in every tool case despite its large diameter.

The maximum lever arm greatly facilitates work thanks to the optimum force transmission. The setting is made using an INOX pushbutton directly on the workpiece, and is extremely easy compared to a pipe wrench. The „BRlpowerXL“ has a hand-friendly handle setting with finger clamp protection.

- Chrome-Vanadium-Steel, chrome-plated
- Grip surfaces are hardened inductively
- INOX pushbutton and spring
- Self-clamping to tubes and nuts
- With finger clamp protection
- Anti-slip handles, soft dip-insulated, yellow
- With pushbutton single-and adjustment
- 27-level fine adjustment

Ratchet wrenches 4 in 1

4 in 1

The ratchet wrench handles 4 different nut sizes

- Sizes: 10 x 13 mm and 17 x 19 mm
- finely toothed 72 teeth of the 2 ratchets – ratchets can be switched to clockwise/counterclockwise operation
- due to 12-slided toothing, the wrench easily grips 4, 6 and 12-sided screws as well as almost round nuts
- Chrome-vanadium steel, chrome-plated
- extremely robust

Art. no. 83

Length 200 mm

10 x 13 mm

17 x 19 mm

Hanger bolt driver

Multidirectional hanger bolt driver

- Screw-in and screw-out tool hanger bolt driver Ø 8 mm and Ø 10 mm
- self-clamping when turned
- for fast and effortless screwing and unscrewing of stay bolts, express and hanger bolts without damaging the thread
- with hexagonal driver for power tools

Art. no. 102/8

Ø 8 mm

Art. no. 102/10

Ø 10 mm

Step wrench set

1/2"

Art. no. 674

Length 105 mm

- 1 reversible ratchet Art. no. 672/265
- 1 step wrench, 105 mm Art. no. 673/105
- supplied in DIY pouch

Combination angle valve key

1/2"

Art. no. 659-1

1/2" Ratchet

The right tool, especially in tight spaces.

For damage-free installation of combination angle valves, which, in addition to connecting a mixer tap, also have an outlet for items like a dishwasher or washing machine.

Common 1/2" ratchets or socket wrenches are used for driving.

NEW

Sleeve extractor set

Art. no. 1088

5 pieces

For the extraction of threaded pipe connections, sleeves and nipples

- Left-hand extractor
- CrV-steel, hardened
- Surface burnished
- Polished cutting surface

The service life of the extractors varies depending on the hardness of the counter material, save high-quality products!
Knock the extractor into the drill hole and loosen the screw.

Content:

- 1 sleeve extractor 3/8"
- 1 sleeve extractor 1/2" - 3/4"
- 1 hexagonal insert 1/2", size 26
- 1 hexagonal insert 1/2", size 19
- 1 reversible ratchet, inner and outer square drive bit, 1/2" drive

Handwheel socket „BRIwheelNut“

1/2"

Art. no. 129-50

1/2" Ratchet

A special tool with bars that engage in the opening of almost all handwheels and that can be driven with a 1/2" ratchet!

Now even the most stubborn barriers are solved with ease!

A problem that every craftsman in the plumbing and heating industry knows!

In the field of domestic water or heating supply, a component must be replaced. In order to facilitate this, shut-off devices such as valves or slide valves were installed in front of replaceable components during construction.

Now such a component as a water meter or a pump has to be replaced.

The valves or gates in front of and behind these components have not been moved for a long time and are therefore so tight that the force of the hand is not sufficient to move the valve or gate, let alone shut off the pipe tightly.

In order to achieve this, pliers, levers and obscure constructions are used. In most cases, this approach leads to the breakage of the cast iron handwheel, to bending or even to the tearing off of the spindle, since the rotational force is applied laterally.

The company BRINKO has addressed this nuisance and developed the handwheel socket „BRIwheelNut“.

The special tool, which is protected with a design pattern, consists of a basic body with protruding webs that engage in the openings of almost all handwheels and that can be driven with a 1/2" ratchet. Due to the force applied centrally from above and the distribution of the pressure points over several surfaces, a non-destructive actuation of valves and slides is made possible.

The time saved and the avoided hassle of removing a destroyed valve with complete shut-off of the water supply or running a heating system empty with subsequent venting of all radiators makes the "BRIwheelNut" an indispensable and cost-saving helper.

Claw-type gripper magnetic

Art. no. 1830

Length: 600 mm

Everything is under control!

- flexible claw-type gripper, length 60 cm
- ideal for gripping screws, nuts etc. that are difficult to reach
- the claw, with 'spring-action-system', can be opened up to 23 mm
- the additional magnet lifts metal parts up to 400 g
- the integrated LED allows to find dropped small-parts even in dark corners

Bit set | 32 pieces | colour-coded**1/4"****Art. no. 2145**

32 pieces

- Supplied in a plastic box with a belt clip
- S2 steel, chrome-plated with colour-coding
- 32 pieces:
 - 1 bit holder with quick release
 - 1 adaptor for 1/4"
 - 30 bits

Content	Colour	Sizes	Pieces

Valve holder

1/2"

- to lock eccentric and standard valves in place, when installing siphons and drains, on washbasins and sinks etc.
- with a flexible T-handle
- length 120 mm

Art. no. 725

Length 120 mm

Duo valve holder

1/2"

Chrome-plated drain fittings installed in sinks tend to get scratched during installation, leading to customer frustration.

To prevent this, there's the Automatic Duo Valve Holder. The Duo valve holder is inserted from the top into the drain valve and locks into place. Now, holding it during installation is no longer a problem, and there's no risk of slipping that could damage the chrome plating.

- For drain fittings in sizes 1" and 1 1/4"
- For use with a 1/2" drive."

Art. no. 726

Length 134 mm

NEW

Toilet seat & sanitary installation wrench „BRImultiKey“ 19 in 1

Art. no. 662

17 mm | ½ Inch

The BRINKO Toilet seat & sanitary installation wrench 'BRImultiKey' 19 in 1 is a multi-talent for the different screw connections on toilet seats, and adapters on water taps and fittings (Perlators/aerators).

You practically do not need any other tools because this universal wrench combines almost everything in one tool.

- Up to 19 adapter options
- Application with larger torques on very tight or rusted nuts, wing nuts, perlators or aerators
- Attractive form, comfortable and pleasant handles
- Reversible inserts (red) as a 'click system' for various sanitary attachments
- Adapter options for 17 mm open-end wrench
- Inner adapter for wrench handle for a 1/2 inch ratchet wrench extension
- Universal wrench made of very durable and tough plastic PA6 (polyamide) and 30 % glass-fibres

WITHOUT an adapter:

Up to 11 different wing nuts of the toilet seat can be opened or screwed on.

WITH adapter:

Open and/or screw on 10 mm nuts (M6 threaded rods) or 13 mm nuts (M8 threaded rods).

Carbon steel, stainless steel pipe cutter

Art. no. 633-71/35

Pipe Ø 3 – 35 mm

Special pipe cutter for INOX, C-steel and Cu pipes
For pipes with Ø 3 35 mm or 1", up to 3 mm wall thickness

Body

- magnesium die casting
- especially light 1/3 lighter than aluminum | almost 1/2 lighter than zinc diecast | 200 g lighter than 633-70/35 yet as strong as zinc die-cast
- best strength/weight ratio of any metal
- easily 100 % recyclable
- modern material, increasingly also used in automotive engineering
- powdercoated (not smoothly painted), thus better feel/grip for dirty (oily, greasy)/sweaty hands

Guide rollers

- **needle bearing** | 2 needle bearings per roller stainless steel rollers
- no more recess for cutting close to the flange, thus optimal guiding of the Inox tube

Fast running spindle

- extra strong
- zinc die casting
- high dimensional accuracy
- high surface quality (low roughness)
- easy to machine: high accuracy

Integrated rotary deburrer

- Noga deburrer (one of the best blade manufacturers in the world)
- removable, easier deburring without moving the whole RAS

Spare cutting wheel

- Art. No. 633-75A
- size: 19 x 5 mm
- **Additional spare wheel in the handle!**
- change without additional tool

Handle

- zinc die casting
- easy to bring the wheel to the tube due to the heavier zinc diecast swing whandle

Cutting wheel with needle bearing

Cutting wheel | Stainless steel, carbon steel, copper

- replacement cutting wheel **with needle bearing**
- suitable for stainless steel, carbon steel, copper
- suitable for: Art. no. 633-71/35
- Outer Ø 19 mm
- Inner Ø 5 mm
- Thickness 5 mm

Art. no. 633-75A

Pipe Ø 8 – 28 mm

Ratchet cut | stainless steel, carbon steel

Problem-solver for pipes that are already installed

- specially for cutting stainless steel, carbon steel and copper pipe, Ø 8 – 28 mm
- the fine ratchet functions makes it easy to cut the pipes
- easy to adjust the spindle
- replacement cutting wheel Art. no. 622-1

Art. no. 622/28

Pipe Ø 8 – 28 mm

Cutting wheel | Stainless steel, carbon steel, copper

- replacement cutting wheel suitable for stainless steel and carbon steel
- suitable for: Art. no. 622/28
- Outer Ø 19 mm
- Inner Ø 6 mm
- Thickness 3 mm

Art. no. 622-1

Pipe Ø 8 – 28 mm

Pipe cutter with deburrer for stainless steel, copper and brass pipes, plastic and composite pipes

With extra strong fast running spindle

- 4-roller guide with groove for beading
- integrated rotation deburrer
- 1 cutting wheel for stainless steel, copper and brass pipes, Art. no. 632-1
- 1 cutting wheel for plastic and composite pipes, Art. no. 633-1 (only integrated in the handle of Art. no. 633/35)

Art. no. 633/35

Pipe Ø 3 – 32 mm

Art. no. 633/45

Pipe Ø 9 – 45 mm

Combination pipe cutter with deburrer

For pipes Ø 6 – 76 mm, 1/4 – 3"

for copper and brass pipes, plastic - two cutting wheels

- rapid spindle adjustment
- 1 cutting wheel for plastic and composite pipe, Art. no. 627-1
- 1 cutting wheel for stainless steel, copper, brass and hard plastic pipe (up to 2 mm), Art. no. 627-2

Art. no. 627

Pipe Ø 6 – 76 mm

INOX pipe cutter Plus with deburring unit

Art. no. 627-70

Pipe Ø 6 – 76 mm

Special pipe cutter for INOX pipes Ø 6 – 76 mm, 1/4 – 3"

- fast feeder system

Integrated rotation deburring unit

- Noga deburring unit (one of the world's best manufacturers of blades)
- detachable, easy deburring without having to move the entire RAS

Guide rolls

- 4 guide rolls made of INOX steel for optimum hold of the pipe
- guide rolls with needle bearings | 2 needle bearings per roll - stainless steel rolls
- no more prior puncturing for cuts close to the seam, this allows optimum guidance of the Inox pipe

Cutting wheel

- fast exchange of cutting wheels without tools
- cutting wheel with needle bearings for INOX, Art. No. 627-71
- size: 19 x 6,2 mm
- extra spare wheel in the handle !!!

Cutting wheel | Stainless steel

Art. no. 627-71

Pipe Ø 6 – 76 mm

- replacement cutting wheel suitable for stainless steel
- suitable for: Art. no. 627-70
- Outer Ø 19 mm
- Inner Ø 5 mm
- Thickness 5 mm

haupa

Automatic plastic tube shears

- with lever transmission
- for tubes in PVC, PE, PD, PEX, PVDF with a wall thickness of up to 2 mm and composite tubes
- single-hand operation and recoil-free ratchet mechanism, high safety standard
- durable blade made of tempered steel with a precise angle for easy cutting of plastic tubes, with V-cut
- little power required thanks to special teeth design
- precise pinpoint cut without deformation of the tubes, wide tube base
- rubber-coated handle and powder-coating for a secure hold without slipping
- transport lock and latch
- blade with fast retraction
- easy blade exchange

9 pieces

Supplied in a strong plastic case:

1 hydraulic hand pipe bending tool

5 bending segments, die-cast aluminium, 10, 12, 15, 18, 22 mm

3 dollies

- for soft copper pipes, coated copper and soft steel pipes
Ø 10 – 22 mm
- for stainless steel pipes Ø 10 – 15 mm
- bends up to 90°
- bending radius 4x diameter
- to refill the oil, please use "Shell Morlina S2 BL 10"
(formerly "Shell Tellus C 10")

Hydraulic pipe bending set | Combined

Art. no. 637-10

15 pieces

Supplied in a strong plastic case:

1 hydraulic hand pipe bending tool

9 bending segments, aluminium pressure die-casting, 10, 12, 15, 16, 18, 20, 22, 26, 32 mm

5 dollys

- for soft copper pipes, sheathed copper and soft steel pipes
Ø 10 – 22 mm
- for stainless steel pipes Ø 10 – 15 mm
- for composite pipes Ø 12 – 32 mm
- bends up to 90°
- bending radius 4 x diameter
- to refill the oil, please use "Shell Morlina S2 BL 10"
(formerly "Shell Tellus C 10")

HD-Hand Inspection Camera „BRICamS“

Art. no. 3780

5-Inch-LCD-HD

- 5 inch LCD HD high resolution screen for real time display
- High-quality CMOS sensor (camera) with a resolution of 1280 x 720 pixels (camera head Ø 8 mm)
- HD resolution screen with 1920 x 1080 and 1280 x 720 options
- Photo and video recording to Micro SD-card
- Triple LED brightness adjustment of camera light and screen illumination
- 1 meter swan-neck camera with IP67 waterproofing
- 4000 mAh, 3.7 volt lithium-ion battery provides up to 5 hours of standby time
- Supports seven languages: English, French, German, Spanish, Italian, Japanese, Chinese

Content:

- Screen Unit
- 1 Meter Swan-Neck Camera with Ø 8 mm Camera Head
- User Guide
- Threading-Attachable Hook
- Threading-Attachable Magnet
- Threading-Attachable 90° Mirror
- Charging cable USB-C to USB-A USB-A charger

Pipe inspection camera system „BRlcamL“

Video inspection system for visual inspection of pipes, hollow bodies and spaces as well as finding blockages or damage!

Pipe inspection camera system BRlcamL with a swivelling camera head, only 28 mm diameter and 40 m fiberglass cable, intelligent compact design combined with simple operation and easy transportation, thanks to the aluminium frame.

This waterproof system is complete with transmitter module can be used between and can be detected, tracked and located by locating devices, operating at 512 Hz. The camera head of the BRlcamL can be rotated 360° and swiveled by 210° and enables an exact Driving through connections and checking pipe branches.

The display unit is surrounded by a robust, waterproof and airtight plastic case and can be used in cramped working conditions or for better transport of the separated push cable unit.

On the 10" TFT monitor with a Resolution of 800 x 600 pixels the smallest Defects will be recognized and the number of meters inserted are shown. The BRlcamL is equipped with a multifunctional Control panel with

QWERTY keyboard for entering text, as also an

integrated microphone for voice recording during video recording on SD card or USB

stick. This intelligent system even has a

device for cleaning the fibre cable after

use by pushing it back, which removes

adhering water and impurities. These are collected in the waterproof body, which can then be emptied outdoors.

By unscrewing the transmitter unit and

inserting an optional adapter, bends from

DN50 upwards are possible. This system can

also be operated with a 10 or 20 meter long

hand reel with a Ø 12 mm camera head.

Content:

- 360°/210° rotating/swivelling camera head Ø 28 mm
- Camera cable: Ø 7mm/40 metres long
- Steel coil, Meter counter
- 6-pin camera connection
- Cleaning brush
- 512 Hz sender
- IP68 Multifunctional control device in the IP66 case, 10" TFT monitor with USB/SD recording
- Text and voice input using the QWERTZ keyboard
- Control buttons for swivelling camera head
- Operated with 6600 mAh Li-Ion battery or current
- Mains adapter, Guide ball and star for camera head
- Video cable 1 metres 6-pin, Remote operation

Pressure testing pump

- for safe tightness testing on water pipes
- brass piston, 1/2" hose connection
- test pressure up to 60 bar
- storage tank 12 l, painted red
- tank dimensions 500 x 180 x 140 mm
- replacement manometer Art. no. 7640-1
- replacement pressure hose Art. no. 7640-2

Art. no. 7640

60 bar

Pressure testing pump stainless steel

- for safe tightness testing on pipes
- in particular with chemically contaminated, aggressive liquids
- also suitable for solar panel systems and underfloor heating systems
- 1/2" hose connection
- test pressure up to 60 bar
- storage tank 12 l made of STAINLESS STEEL
- per stroke 0.027 litres
- tank dimensions 500 x 190 x 140 mm
- replacement manometer Art. no. 7641-1
- replacement pressure hose Art. no. 7640-2

Art. no. 7641

60 bar

Pipe cleaning pump

- Suction and pressure cleaner for blocked pipes
- short attachment for washbasins and sinks
- long attachment for WC

Art. no. 3722

Length 55 cm

Water pressure drain cleaner

- Ingeniously removes blockages in drainpipes with high pressure water
- for pipes Ø 40 – 150 mm
- including 1.5 m hose with adaptor, hose connection 1/2" x 3/4" IG
- patented pressure balloon

Art. no. 3730/1

Pipe Ø 40 – 80 mm

Art. no. 3730/2

Pipe Ø 80 – 150 mm

Sealing balloon

- easily seal pipes
- pneumatic sealing system for various pipe diameters
- insert, inflate, work
- suitable for compressed air hose Art. No. 3800-2 and to the air pump with manometer Art. No. 3800-3

Art. no. 3800-1/1

Pipe Ø 30 – 50 mm

Art. no. 3800-1/2

Pipe Ø 50 – 80 mm

Art. no. 3800-1/3

Pipe Ø 70 – 100 mm

Art. no. 3800-1/4

Pipe Ø 90 – 150 mm

Compressed air hose

- extension hose for sealing bubbles
- can be extended as required
- length 3 m

Art. no. 3800-2

Length 3 m

Plug for inner pipe

Mechanical pipe sealing system for inner pipe

- ideal for sealing drain pipes and for long-term applications
- easy to insert and secure due to extra large wing nut
- resistant to use and waste water
- suitable for all types of pipest
- maximum counterpressure: 1.2 bar or 12 m
- Housing made of glass-fibre reinforced ABS plastic
- sealing ring based on natural rubber
- Galvanised threaded screw and wing nut - corrosion-resistant

Original Gripper - tested and proven, the most preferred mechanical shut-off discs on the market

Maximum Counter Pressure 1,2 bar corresponds to a 12 m water column

Art. no. 3806/1

Pipe Ø 96 – 103 mm

Art. no. 3806/2

Pipe Ø 147 – 154 mm

Art. no. 3806/3

Pipe Ø 196 – 204 mm

Plug for end pipe

Mechanical pipe sealing system for end pipe

- ideal for sealing drain pipes and for long-term applications
- easy to insert and secure due to extra large wing nut
- resistant to use and waste water
- suitable for all types of pipest
- maximum counterpressure: 1.2 bar or 12 m
- Housing made of glass-fibre reinforced ABS plastic
- sealing ring based on natural rubber
- Galvanised threaded screw and wing nut - corrosion-resistant

Original Gripper - tested and proven, the most preferred mechanical shut-off discs on the market

Maximum Counter Pressure 1,2 bar corresponds to a 12 m water column

DIAMOND core drills “BRIdiamondDrill”

Advantages of the DIAMOND drills:

- precise positioning, minimum risk of slipping off
- Safety, Fast, Efficiency & Sophisticated design
- special wax filling ensure cooling, no cooling water required
- hex shank Ø 8,2 mm
- wax filled core helps cooling and lubricates, need not watering
- a strong bond is made through the brazing process extending service life
- Diamond coated design reduces cutting heat for 5x longer working life

Reliable cutting, drilling & grinding in the following materials:

- floor and wall tiles, hard porcelain
- granite and marble
- glass and fiberglass

Fitter's hammer with 3-component handle

Vibration-free fitter's hammer with 3-component handle.

The hammer head with the forged safety collar according to DIN 1041 and rubber protection sheath is secured mechanically in the handle with a heavy steel wedge. The high-safety handle comprises 3 components that are permanently connected to one another! The inner core is made of an aluminium alloy. A polyamide plastic (A2800) that is ultra-resistant to oils and solvents and also the non-slip rubber handle are moulded around this.

Benefits:

- Shock-absorbing, therefore gentle on the joints
- High-safety handle is indestructible
- The handle is permanently connected to the hammer head
- Non-slip handle allows ergonomic and safe work
- Highest possible level of safety

Cordless Pressing Tool ACO103 BT | 4.0 Ah

Art. no. 625-1PM/ACO103

Pipe Ø 12 – 40 mm

Comfort Line ACO102 - compact and powerful efficiency - NEW WITH BLUETOOTH

Supplied in case:

cordless pressing tool, 1 battery 12 V 4.0 Ah Li-Ion, 1 charger
storage space for up to 6 press jaws PB1

- Data transfer via Bluetooth®
- for press connections 12 – 35 mm metal, 16 – 40 mm plastic
- automatic pressing process, bolt retention
- particularly suitable for tight pressing space and installation situations
- real single-handed operation: 1.7 kg light, 32 cm long (without press jaw), ergonomic shape
- LED display with electronic display: pressing force monitoring, battery charge monitoring, error messages
- output: 240 W, piston force: 19 kN, piston stroke: 30 mm
- battery: 12 V Li-Ion 4.0 Ah, battery capacity: 40 – 180 pressings, charging time: approx. 30 – 60 min
- compatible with novopress PB1 press jaws Art. no. 625-20 to -25

5,26 kg

Cordless Pressing Tool AC0203 BT | 5.0 Ah

Comfort Line AC0203 - a new generation of pressing technology - NEW WITH BLUETOOTH

Supplied in case:

cordless pressing unit, 1 rechargeable battery 18 V 5.0 Ah Li-Ion, 1 charger, storage space for up to 6 press jaws PB2

- Data transfer via Bluetooth®
- for press connections 12 - 54 (108) mm metal, 16 - 110 mm plastic
- fits securely in your hand: 2.8 kg, 39 cm long (without press jaw), ergonomic shape
- Features: pressing area illumination, implemented force monitoring and diagnosis function, innovative brushless motor technology for faster pressing process and more pressings per battery charge
- output: 450 W, piston force: 32 kN, piston stroke: 40 mm
- rechargeable battery: 18 V Li-Ion 5.0 Ah, battery capacity: up to 250 pressing processes, charging time: 60 min
- compatible with novopress PB2 press jaws Art. no. 625-50 to -35 and novopress PS2 press collars Art. no. 625-40 to -45

Art. no. 625-5PM/AC0203

Pipe Ø 12 - 110 mm

8,30 kg

V-Press jaw set

Press jaws also wear out during use. Replacing them guarantees the safety of the pressing process and safeguards the worker by using suitable press jaws.

BRINKO offers the most commonly used sizes V15, V22, V28, and V35 in a specially equipped BRINKO box with the V-Press jaw set. The BRINKO box has 2 additional slots where intermediate sizes like V12 and V18 can be stored, as well as a compartment for additional equipment such as pipe cutters or deburrers.

Contents:

V-Press jaws V15, V22, V28, and V35

Art. no. 625-10SE

Suction Cup

Art. no. 1180

0,39 kN

Guaranteed the right Suction Cup for your application with the highest degree of security

- plastic body, 2x suction disc Ø 120 mm
- load-bearing capacity: up to max. ◀▶ 80 kg, ⬆ 40 kg
- guideline value – use under the specified value recommended
- handle is covered with non-slip rubber

Can be used on all materials with smooth, sealed surfaces (e.g. panes of glass, tiles, stone, sheet steel, panels made of coated wood) Safety information:

- the surface of the object and the suction discs must not be greasy
- before lifting a weight, carry out a test
- never walk under the load and never lift above yourself or others

Tension cable | 8 mm, length 1 m

Art. no. 1140/8

Length 1 m

- Rubber tension cable 8 mm thick and 100 cm long
- latex core
- with two rubberised universal wire hooks
- approved lashing capacity: 70 N ~ 7.1 kg
