BATTERY-HYDRAULIC CABLE CUTTER

in proven quality with an even larger
cutting range

The new battery-hydraulic cable cutter "AS6-S65" cuts copper and aluminium cables (except ACSR and SWA cables) with a diameter of up to 65 mm.

The special feature of the cable cutter "AS6-S65" (Art. no. 216423-1) by HAUPA is the large cutting range of up to 65 mm. The durable design with perfect, force-saving centre of gravity and the light weight of 4.5 kg make this tool ideal for big tasks.

The high-performance cable cutter can be positioned reliably on the cable even in tight spaces. One battery charge of the 2 Ah battery supplied in the set allows up to 50 cutting processes depending on the cable.

The forwards and reverse button with a safety lever allows the cutting process to be controlled at any time, thereby ensuring safe working.

Battery-hydraulic cable cutter "AS6-S65"

- For copper and aluminium cables, multi-wire
- Diameter 65 mm

Product includes:

1 cutting tool, 1 charger, 1 battery 18 V Li-Ion, 2 Ah,
1 carry strap loop, in a system case

- Precise cut with little conductor deformation
- Cutting force kN: 60
- Work pressure in bar: 700
- Cutting width Ø: 65
- Cutting head rotates 180°
- Battery charge time in minutes: 30
- Battery type: Li-Ion, 18 V, 2 Ah
- For battery Art. no. 215523 and charger Art. no. 215527
- Compatible with MAKITA 18 V charging equipment
- LED lamp for illuminating work area

LED construction site lamp "HUPlight5200hybrid"

Art. no. 130386

389 x 342 x 140 mm

- Compatible with 18 V battery systems from Bosch, Makita, Milwaukee, DeWalt, and CAS (Metabo), corresponding adapters included
- 230 V AC or 18 V DC operation with emergency light function
- Designed and certified for use on construction sites, both indoors and for temporary outdoor use

This versatile hybrid (230 V & battery) work light is specially designed for professional craftsmen, mechanics, and construction workers who are often on the go. It comes equipped with a battery holder suitable for 18 V batteries from **HAUPA, Makita, Dewalt, Milwaukee, Bosch, Metabo (CAS)**.

The corresponding adapters are included, eliminating the need to purchase an additional battery system.

The work light is dimmable in two stages (50%, 25%), has a cool white colour temperature (5,000 K), and a colour rendering index of RA >90. The operating time ranges from 2.5 to 9 hours (based on an 18 V/5 AH battery), depending on the selected light output mode. The opal diffuser reduces glare from the 5,200 lumen strong light source and ensures homogeneous illumination of the workplace.

The housing and front diffuser are made of impact-resistant polycarbonate (IK08). The light is dust and splashwater protected thanks to the sturdy battery cover (IP54).

This work light is equipped with technology that prevents overheating and deep discharge of the battery.

The batteries must be charged with the manufacturers' charging stations and are not included.

In addition to batteries, the work light can also be powered by the included 5 m long connection cable H07RN-F 3G 1.5 mm². This work light is equipped with a socket (max. 3000 W), allowing the connection of another light, power tool, or other device,

eliminating the need for additional extension cords.

Safety: In the event of a power outage, this work light automatically switches to battery operation within approximately 0.5 seconds,

ensuring you never sit in the dark and minimizing the risk of injuries and damage.
